## Shiitake Enterprises for Farms and Forests In Northern New England

Applicant (s)			
Town	, NYZip	Telephone	
Farm Name		E-mail	
Why are you applying to atte	nd or series of workshops on grow	ving shiitakes? (please check o	on response)
1) wanting to grow for	r diversified sales and markets, or (2)	) wanting to grow as a hol	bby, or (3) just out of curiosit
Please check your interests	related to the management areas y	ou would like to focus on :	
Enterprise Analysis/Costs	_ Increasing Current Production	on Wholesale markets	Wood lot management
On-farm sales	<ul> <li>Increasing Current Production</li> <li>Forest crop management</li> <li>Forest management plan</li> </ul>	Niche market developn	nent Labor management
Drying & processing	Forest management plan	Organic certification	Other
Have you had experience in gr	owing mushrooms before? If so	o, please describe:	
		Current mushroor	n logs on site:
n your own words, briefly de	scribe what you expect to gain thr		•
In your own words, briefly de			•
Please describe your operat		rough our Shiitake Mushroom	workshops:
Please describe your operat Total acres owned or rented _	ons by completing the following:  Woodland, forested acres	rough our Shiitake Mushroom	workshops:
Please describe your operat  Total acres owned or rented  For the most recent year, ple	ons by completing the following: Woodland, forested acres	ough our Shiitake Mushroom  Other crop land O	workshops:
Please describe your operat  Total acres owned or rented  For the most recent year, ple  Gross farm income	ons by completing the following:  Woodland, forested acres	ough our Shiitake Mushroom  Other crop land Off far	workshops:  or, I do not own farm or forest land _  m income
Please describe your operat  Total acres owned or rented  For the most recent year, ple  Gross farm income  Or, check here if you do not	ons by completing the following:  Woodland, forested acres  ase provide the following:  Net farm income own a farm and are just planning to	ough our Shiitake Mushroom  Other crop land Off far	workshops:  or, I do not own farm or forest land _  m income
Please describe your operat  Fotal acres owned or rented  For the most recent year, ple  Gross farm income  Dr, check here if you do not	ons by completing the following:  Woodland, forested acres  ease provide the following:  Net farm income own a farm and are just planning to	ough our Shiitake Mushroom  Other crop land Off far to attend out of your own inter	workshops:  or, I do not own farm or forest land _  m income  rests
Please describe your operat  Fotal acres owned or rented  For the most recent year, ple  Gross farm income  Dr, check here if you do not	ons by completing the following:  Woodland, forested acres  ease provide the following:  Net farm income own a farm and are just planning to	ough our Shiitake Mushroom  Other crop land Off far	workshops:  or, I do not own farm or forest land _  m income  rests  April 16, 2010

## Shiitake Mushrooms as a Farm/Forest Enterprise

The University of Vermont and Cornell University are involved in a 3 year research initiative on the forest cultivation of shiitake mushrooms and are looking for farmers and forest owners who are interested in growing shiitakes as an alternative enterprise on their land.

Together with experienced shiitake growers from NY, NH and VT, we are developing a program that will help you to not only learn how to grow shiitake mushrooms from A to Z, but also help you to decide if you want to get into Shiitake farming on a commercial enterprise scale of at least 100 logs a year, gradually building to 500 harvestable logs at your site.

Through a series of hands-on workshops and visits to actual "shiitake farms", participants will learn about tree species selection and sustainable forest management, spawn types, laying vard deign and management, inoculation, predictable fruiting, and enterprise management. Growers will be involved in determining how to manage costs and optimize marketing opportunities which will affect profitability and thus potential for widespread adoption. Those persons selected to participate will receive shiitake spawn and assistance in inoculating their own shiitake log yard. The initiative will result in the development of a personalized 5 year enterprise plan and establishment of at least twenty 100 log trials.

> Intro Workshop - April 16 & 17, 2010 Field Visit - July 18, 2010 **Contact: Ken Mudge Cornell's Arnot Forest, Ithaca, NY**

Intro Workshop - May 8, 2010 Field Visit -September 12, 2010 **Contact: Nick Laskovski** Dana Forest Farm, Waitsfield, VT

Intro and Field visit combined: September 19, 2010 **Julie & Steve Rockcastle Green Heron Growers** Panama, Chatagua Co., NY

Applications and registration information will soon be posted at the website for the Northeast Forest Mushroom Growers Network at http://mushrooms.cals.cornell.edu/ and at the UVM Center for Sustainable Agriculture's website at www.uvm.edu/sustainable agriculture

If you are interested in registering for the workshops, please contact Allen Matthews (allen.matthews@uvm.edu) Farm Enterprise Coordinator at the UVM Center for Sustainable Agriculture or Kenneth Mudge (kwm2@cornell.edu), Associate Professor of Horticulture at Cornell, and Director of the Forest Farming and Mushroom Cultivation Program.
